Event to promote open school system

The Centre for Social Initiative & Management, (CSIM), Bangalore, conducted an awareness programme on Saturday to encourage the open schooling system. The objective of the programme, 'Learn, your way' — organised at the SBMJC Center for Management Studies, Bangalore, in association with TVS Lucas — was to create awareness about alternative schooling systems, especially among children who are unable to cope with or afford the mainstream education system. The event aimed at sensitising parents, teachers, children, adolescents, and school dropouts to the open schooling concept for a stress-free education.
