and Performance**

Saturday, 25th January 2020

Time : 9.00 am - 2.00 pm

**Venue : Center for Management Studies,
Lalbagh Road, Bengaluru**

Theme

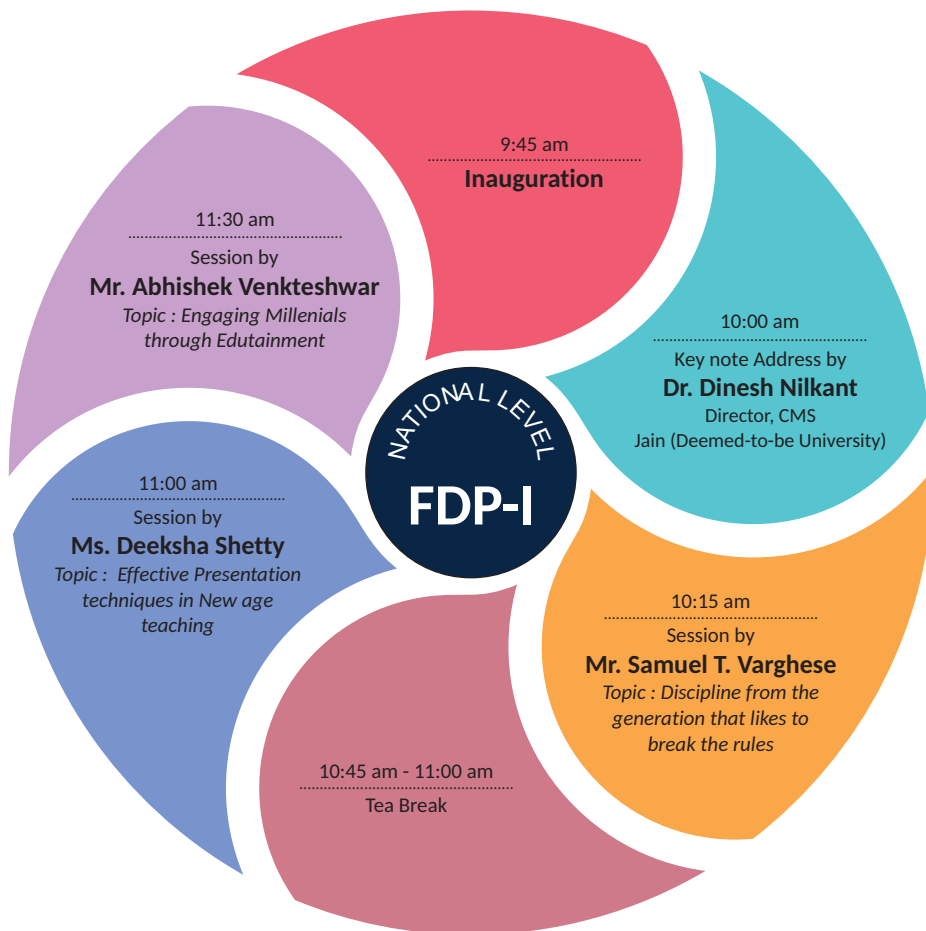

Pedagogy is an art work of teaching and an effective pedagogy involves an extensive range of strategies which focuses on higher order of thinking and satisfies diverse needs of a range of learners. There cannot be any prevalent Universal method suitable for all conditions, and effective instructors use various techniques to help intellectual engagement.

Many professors believe that good subject knowledge will assure professional success in teaching. However, knowledge of highly sophisticated professional skills, concepts and theories will be in vain if the faculty

does not know new approaches to attract new age students.

This FDP aims to deliver to every participant, class room effectiveness and capacity to use progressive teaching methods. An effective pedagogy strategy permits teachers to have a look at and mentor college students in context of sophistication in academic situations which increases the prospects of effective studying. Currently there exists an extensive variety of pedagogical choice designed with appropriate techniques for effective mastering effects.
